Buying lamps with foresight – see the future road faster and better with Osram

The Night Breaker 200 from Osram is up to 200 percent brighter than required by law. As the brightest halogen retrofit lamp, it expands the high-tech company's Night Breaker portfolio.

By using cutting-edge technology, the Night Breaker 200 delivers a high light output. The powerful headlight lamps are up to three times brighter and provide up to 20 percent whiter light than required by law. The light beam extends up to 150 meters. The strong luminosity of the headlamp light provides improved, wider visibility. Better visibility can help drivers recognize traffic signs and hazards more quickly and react to them swiftly without incidence, improving road safety.

The new visual feature is the mirrored chrome dome, which gives the lamp its modern look. The Night Breaker 200 will be available in May 2021 as an H4 and H7 lamp in the duo box or folding box. The recommended retail price is 44.99 euros per H7 duo box. The performance lamp complements the existing halogen and xenon lamp portfolio of the Night Breaker series.

About ams and OSRAM

The ams-OSRAM Group, including the listed companies ams AG as parent company and OSRAM Licht AG, is a global leader in optical solutions. By adding intelligence to light and passion to innovation, we enrich people's lives. This is what we mean by Sensing is Life.

With over 110 years of combined history, our core is defined by imagination, deep engineering expertise and the ability to provide global industrial capacity in sensor and light technologies. We create exciting innovations that enable our customers in the consumer, automotive, healthcare and industrial sectors maintain their competitive edge. We thereby drive innovation that meaningfully improves the quality of life in terms of health, safety and convenience, while reducing impact on the environment.

Our around 30,000 employees worldwide focus on innovation across sensing, illumination and visualization to make journeys safer, medical diagnosis more accurate and daily moments in communication a richer experience. Our work creates technology for breakthrough applications, which is reflected in over 15,000 patents granted and applied. Headquartered in Premstaetten/Graz (Austria) with a co-headquarter in Munich (Germany), the group achieved well over USD 5 billion combined revenues in 2020 (pro-forma).

ams AG is a listed company on the SIX Swiss Exchange (ISIN: AT0000A18XM4). OSRAM Licht AG remains a listed company on the XETRA market in Germany (ISIN: DE000LED4000).
